**Didactic quality assessment for innovation of teaching
and improvement of learning**

Qual.i.t.i. Intellectual Output 2 – Tools: Letters and Professor/Student Questionnaires

Dear Rector,

The University of L'Aquila is lead partner of an international Project (Erasmus+ program) on the quality of teaching and disciplinary quality entitled QUALITI - Didactic QUALity Assessment for Innovation of Teaching and Improvement of Learning (2019-1-IT02-KA203-063157). Our partners are: Universitat de Barcelona (Spain), Universitatea Valahia Targoviste (Romania), Vilniaus Universitetas (Lithuania), Szczecinska Szkoła Wyższa Collegium Balticum (Poland), Universitat de Barcelona (Spain), ilmiolavoro srl (Italy) and Siuolaikiniu Didaktiku Centras (Lithuania).

The project aims to improve the quality of university teaching. Within the QUALITI project two questionnaires (one for teachers and one for students) have been developed to be administered in all partner countries. I would like to ask you to send the questionnaires to all the teachers and students of your University, asking them to fill it in and, if possible, to forward it to other Universities you have relations with, in order to allow us to obtain a high number of answers to reach our project target (10000 students and 10000 teachers). You will find below the letters accompanying the questionnaires, in which the reasons and objectives regarding the research are explained, and the respective links.

Thank you for your help towards the success of the project.

Kind regards,

Antonella Nuzzaci

Dear Colleagues,

The University of L'Aquila is lead partner of an international Project (Erasmus+ program) on the quality of teaching and disciplinary quality entitled QUALITI - Didactic QUALity Assessment for Innovation of Teaching and Improvement of Learning (2019-1-IT02-KA203-063157). Our partners are Universitat de Barcelona (Spain), Universitatea Valahia Targoviste (Romania), Vilniaus Universitetas (Lithuania), Szczecinska Szkoła Wyższa Collegium Balticum (Poland), Universitat de Barcelona (Spain), ilmiolavoro srl (Italy) and Siuolaikiniu Didaktiku Centras (Lithuania).

The project aims to improve the quality of university teaching through a systemic and integrated institutional action. In order to acquire data by identifying indicators focused on teaching and to enhance academic teaching according to precise benchmarks, a questionnaire will be administered in all partner countries to find out the opinion that university teachers have about some teaching practices. The information about your teaching experience will allow the research team to obtain useful data to continue the reflection on the indicators concerning the teaching-learning processes.

The questionnaire will take no more than 7-8 minutes to complete. Data will be treated in a strictly anonymous and aggregated manner.

In thanking you for your the time you will reserve for us, here is the link to the questionnaire: <https://it.surveymonkey.com/r/KK6QY8V>

If you think it appropriate, you can also send the link to colleagues from other Italian and foreign universities.

Kind regards
